***Subject: Reference letter***

To whom it may concern:

It is my pleasure to recommend Ms. Ons Elleuch for admission to a graduation internship. I am an Assistant Professor at the National Institute of Applied Science and Technology. I came to know Ons when I was her professor in Data Mining, Machine Learning and Object Oriented Programming classes. In addition, I supervised her in several computer labs and mini-projects. She distinguished herself by being one of the most interactive, enthusiastic and dedicated students in the class.

Overall, Ons is highly intelligent and has good analytical skills. She is always trying to be engaged in her community and makes a positive difference. She shown her dedication and hard work on several times while she occupied managerial roles in extra-curricular activities. She made a brilliant impression everywhere she worked. This demonstrates Ons' ability to work in and lead a team, deal with difficult situations, and learn from her environment.

I trust that Ons will be an excellent asset to whatever team she aims to join, as she is a quick learner who is enthusiastic about her work. I am convinced that she has much to contribute.

I am delighted to be able to recommend Ons for this internship, and I hope you will find her qualities and potential appealing as well, and that you would evaluate her application positively.

Please feel free to contact me at [sana.hamdi@fst.utm.tn](mailto:sana.hamdi@fst.utm.tn) if you have any questions.

Sincerely.

Dr. Sana HAMDI
