

To whom it may concern,

As the CEO and founder of Logis Technologies, I had the pleasure to work with Ms. Elleuch as her supervisor during her internship at our company (Summer of 2021).

Ever since we first met, Ms Elleuch's incredible analytical skills to diagnose problems and devise viable solutions have always impressed me. On her first day, we had a great and illuminating conversation about the future of real estate. Not only can she hold her own in a discussion, but she can also conceptualize and communicate effectively to a business audience.

Ms Elleuch possesses the ultimate "can do" attitude while taking on all tasks with a positive energy and a smile. Her upbeat personality and engaging personal style enable her to interact effectively in a professional environment. She is a take-charge person who is able to present creative ideas and communicate the benefits. She has successfully developed an innovative and complex system based on a cutting edge technology despite deadline pressure with limited supervision.

I volunteered to write this recommendation for Ms Elleuch because I am very grateful for her contributions to our office and very confident that she has the intelligence, work ethic, and communications skills to add value wherever she goes.

To conclude, I would like to restate my strong recommendation for Ms Ons Elleuch. If you have any further questions regarding Ms Elleuch's ability or this recommendation, please do not hesitate to contact me.
